

## 2-) Half Day Kursunlu and Duden Waterfalls

In the afternoon, departure from your hotel with the first stop being Kurşunlu Waterfalls which is located 19 km from Antalya at the end of a 7 km road branching off to the north of the Antalya-Serik-Alanya highway at a point 12 km from Antalya. It is reduced to a mere trickle in the summer months. The waterfall is on one of the tributaries of the Aksu River and its situation in the midst of a pine forest is of quite exceptional beauty. The countryside around the water forms a lovely picnic and pleasure spot only twenty minutes from the centre of the city of Antalya. Then we will leave for Duden Waterfalls tour. The river Duden is leaving a higher plateau of the Taurus mountains by falling about 15 m deep and 20 m wide onto a lower plateau next to Antalya. Because of the raw ingredients in the water, huge amounts of Tuff stone ( volcanic ) materials have formed the river bed as well as a cave below the waterfall. All the area is kept in nice condition in peace and the view onto the waterfall is fascinating.
